PROJECTS

GadyetHub — *Next.js · TypeScript · Supabase · PostgreSQL*

- Built a **full-stack e-commerce marketplace** for electronics with a **customer storefront + admin dashboard**, supporting **product management, order workflows, and inventory control**.
- Implemented **role-based auth** (Customer/Admin), **real-time notifications**, and a **responsive dark/light UI with 10+ API routes** across public, admin, and client scopes.

Developer Portfolio v2 — *Next.js 16 · React 19 · TypeScript · MongoDB*

- Built a feature-rich portfolio with **6 live API integrations** (GitHub, Spotify, Codewars, WakaTime, Google Gemini, Resend) and an **AI chat assistant** powered by Google Gemini.
- Architected a **full blog system** with Markdown support, comments, admin dashboard, and **rate-limited APIs (30 req/min)** — live at [zidvsd.site](#).

Stash – Personal Finance Tracker — *Next.js 16 · Supabase · Tailwind CSS · Recharts · Zustand*

- Built a personal finance tracker with **expense recording, category breakdowns, and spending analysis via Pie and Line charts** using Recharts.
- Managed **real-time client state** with Zustand and persisted data to **Supabase (PostgreSQL + Auth)**.

Client Frontend Projects — *HTML · CSS · JavaScript · Tailwind CSS · React*

- Delivered **3+ commissioned frontend projects** for barbershops and food chains including **landing pages, menus, and booking UIs** with fully responsive layouts.

EXPERIENCE

Freelance Web Developer *2024 – Present | Remote*

- Accepted commissioned web development projects from students and small clients, delivering responsive and functional frontend interfaces.
- Collaborated directly with clients to gather requirements, iterate on designs, and deploy final products on time.
